5V Rechargeable cabinet light serie

Rechargeable LED cabinet lights are an eco-friendly and convenient way to get light in places without easy access to electrical outlets. They are rechargeable, use less energy than traditional lights and thanks to the PIR sensor, your cabinet lights will automatically turn on when motion is detected, such as when opening the cabinet door. A great investment for any homeowner. Say goodbye to fumbling for a light switch in the dark with these easy-to-use lights. And you can even change the temperature from cold to warm to your liking. If you need to recharge your cabinet lights it's super easy because of the magnet mounting clips.

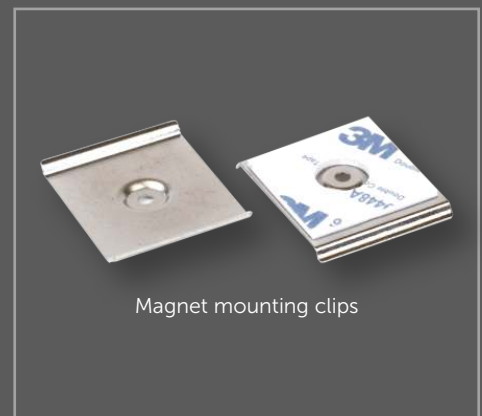

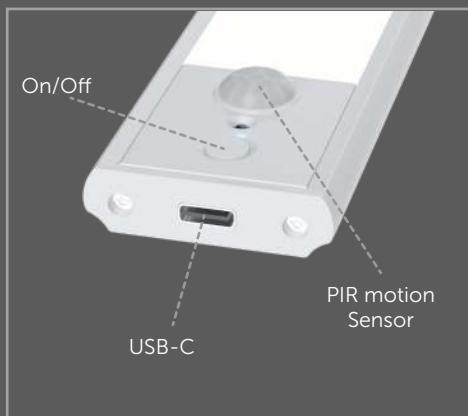

L300mm x H11mm x B40mm

L400mm x H11mm x B40mm

L600mm x H11mm x B40mm

24V Cabinet light serie

These designer lights are a versatile lighting solution that can enhance the look and functionality of any cabinet. With the ability to customize the colour temperature of the light to suit your needs, these lights can create a warm and inviting atmosphere, or a cool and energizing one depending on your preferences (From 3000K to 5000K). Whether you're looking to highlight a specific feature or simply want to add some extra illumination to your cabinets, these lights can provide a practical and stylish lighting solution. Below you can see all the options, like how you can connect multiple lights together, lengths & connection clips.
