

CCT LED Panel + Dali Type 8 driver 40W 2700~6500K 80Lm/W

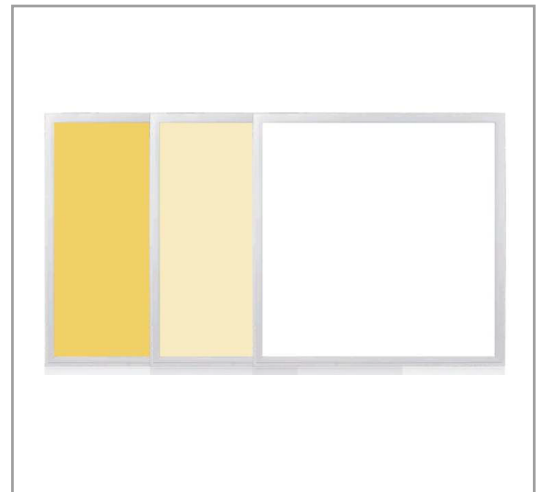

CCT Panel

LED Flatlight: We only want to deliver top quality. That's why all of our panels have a non-flicker driver. A non-flicker driver makes the light feel more comfortable for your eyes. With the naked eye, this blinking / flickering does not occur, but unknowingly you may be affected by it. Created a healthier work environment with our panels.
